The end of PMO as we know it?

Change to survive & thrive...

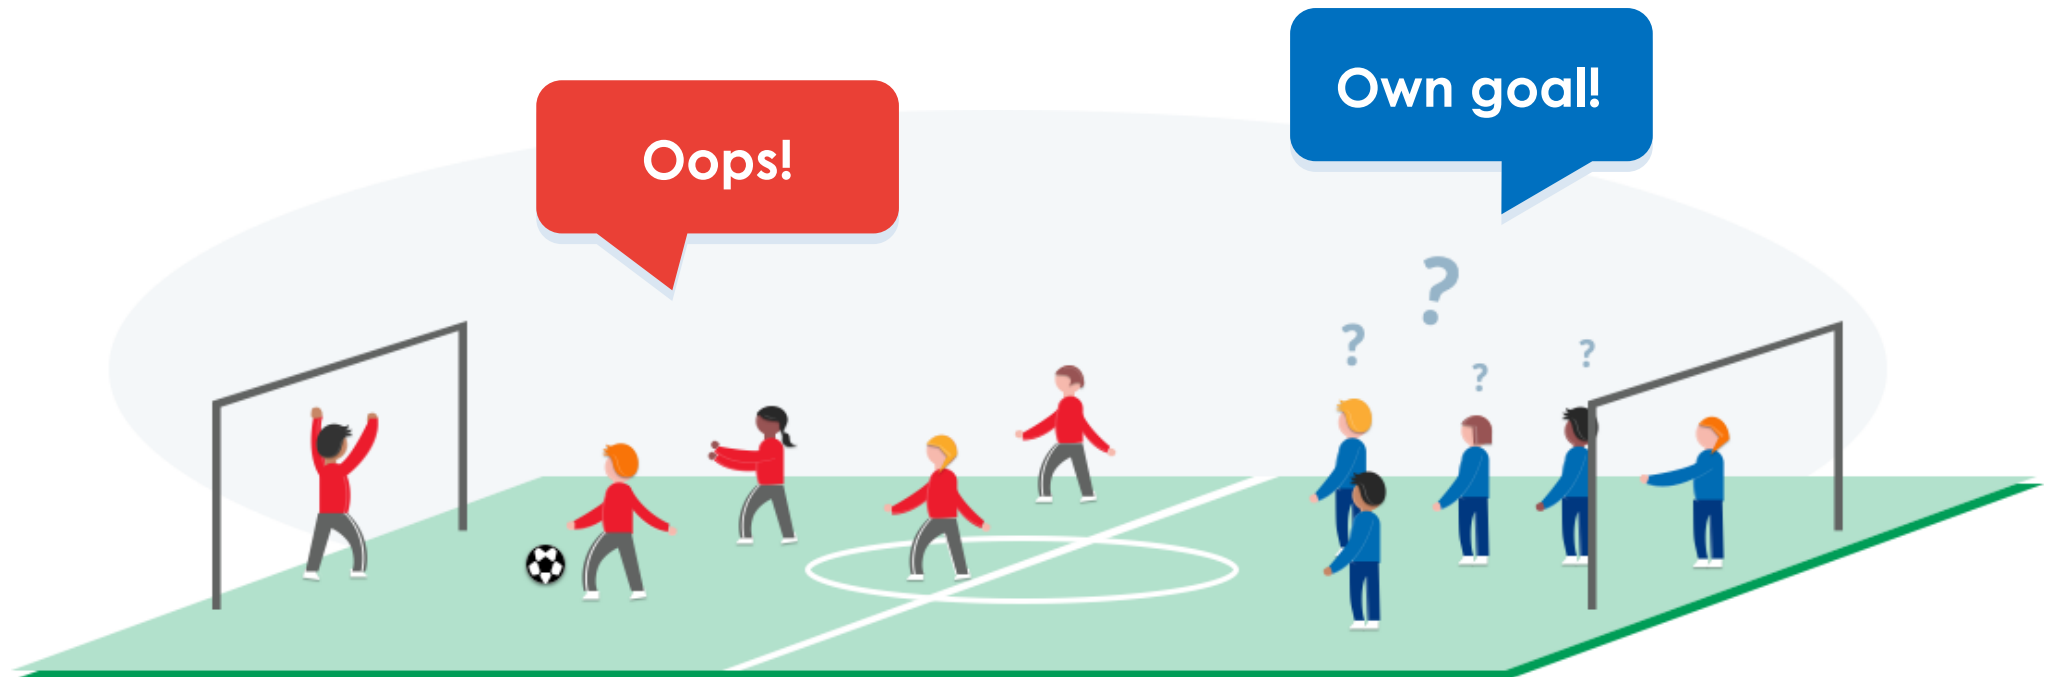

Next Generation PMO?

'What's that?'

Are PMO perceptions fair?

What are the problems the PMO is trying to solve?

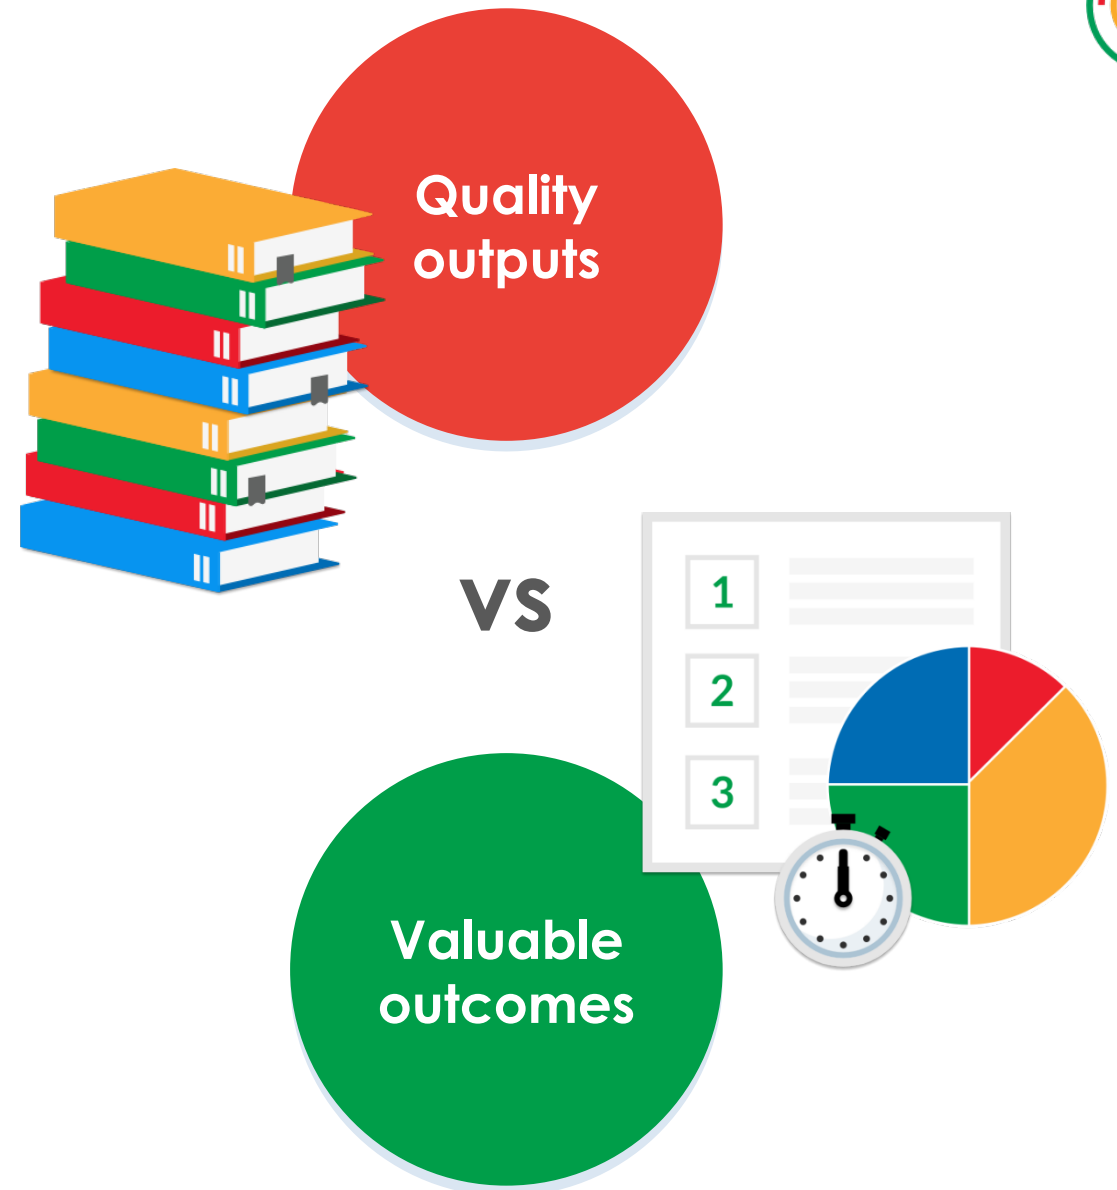

Current vs Next Gen = similar

That is NOT the challenge we face!

Next Gen PMO

Next Gen **Value Based** PMO.....

Who is the audience/ 'customers' we are trying to serve?

Do we really know and align with our audience?
...how well do we align with their needs?

Next Gen PMO

Look in The Mirror...

Hmmmm...

Is the PMO adding value and achieving outcomes?

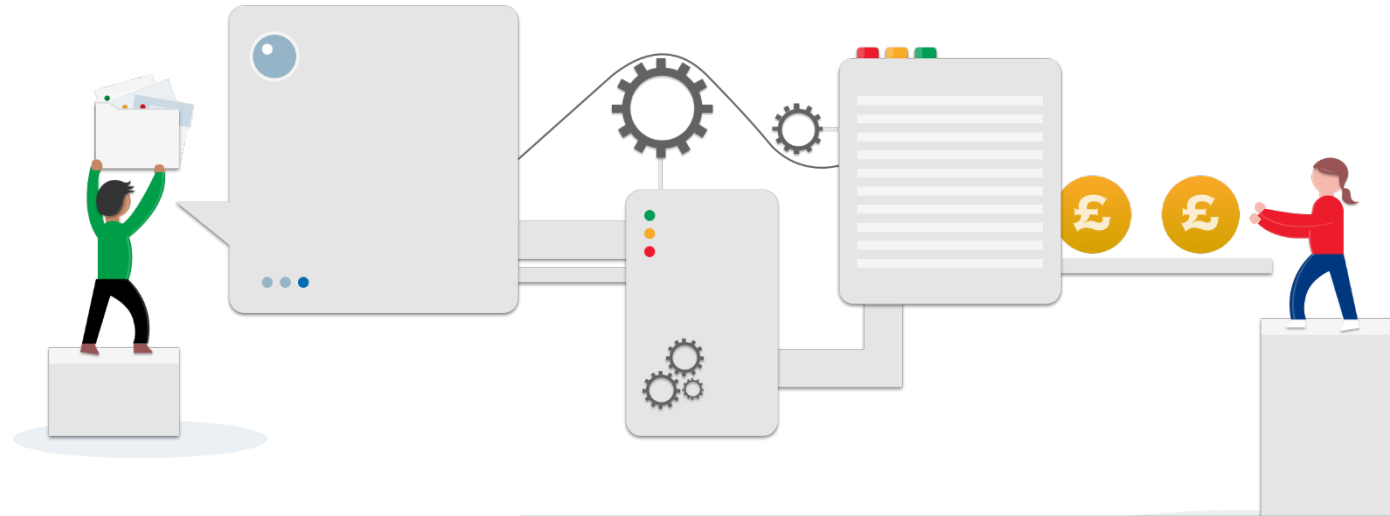

Summary

Next Gen PMO

- Outcomes vs mechanics
- Simple is good
- Understand & align with your audience
- Avoid over engineering solutions & language
- Don't buy or build tools/processes/templates that the organisation can't cope with.
